A Message to the Beloved Seeker For Truth

Have you ever thought just what Spiritual Development meant to you personally?

Most students think of Truth as an abstract thing, when in reality, Truth is something to be lived every day. The Universe is controlled by Divine Law and if we learn to live in harmony with the Law it will set us free. No man breaks Cosmic Law but we often break ourselves against the Law because of lack of understanding.

The Brotherhood College is formed to instruct man in the way through which he could know and live in harmony with Divine Law and become Master of his own fate.

An invitation is extended to all who desire light and Truth to affiliate with us in the great work. Each soul entering the Path of Light helps to banish the darkness.

Perhaps the one thought paramount in the mind of every individual in this country is: What does the future hold for America and Americans? Wise men know that the earth has passed through a number of cycles or ages in which civilizations have risen, fallen and been forgotten, while upon the ashes of the dead past new races and new nations have arisen.

We are now in the closing years of the sixth great cycle or age, almost ready to pass into the seventh cycle. According to the ancient wisdom this coming golden age will be an age of glorious light in which the human race will attain to the perfect state.

In the secret archives of the Great Wisdom teachers may be found an exact prophecy concerning this new golden age which is at hand. Knowing the true destiny of mankind, members of the Universal Brotherhood are able to chart the path of life with absolute accuracy.

In this ancient prophecy which has so far, been fulfilled exactly as the wise men of thousands of years ago foretold, we can find an exact map of life and events of today, and of those that are to manifest in the near future.

The events foretold in the following pages are the things which I read in the secret archives, and which were told me personally by the wise men, the Great Masters of the White Lodge.

In conclusion let us say that all life is regulated by one Universal Law, the Law of cause and effect, which was simply stated by Jesus in these words, "as ye sow, so also, shall ye reap."

Every individual has the power to be master of his own fate and captain of his own soul. The prophecy concerns races, nations and continents, not individuals, for each individual rises or falls as he wills. Yet it is known that in the end all will overcome life and manifest in perfect peace, harmony and light in the coming golden age.

America's Place in the Coming Golden Age

THE SEVENTH CYCLE MESSAGE

Man is today in the last fifteen years of the present sixth cycle or age and is immersed in the chaos that always marks the close of a cycle and the emergence into a new age. The ancient wise men, looking into the future, were able to map this present age and foretell the events that are now taking place.

In the ancient wisdom it is foretold that the world will be separated into four parts which may roughly be divided into Asia, Africa, Europe and America.

In Asia, Africa and Europe cataclysmic wars, famines and plagues are foretold, to continue until 1970, with brief intermissions.

The destruction of Italy by earthquake and volcano is foretold; this event to take place in 1955.

Europe is to continue its wars and chaos until three-fourths of the population is destroyed. There will then be formed two great alliances of seven nations on one side and ten on the other. One of these will be headed by Germany, the other by England. These two great alliances will continue to struggle for dominance, first one appearing to win, then the other. Finally, after thirty years of strife, peace will be made, but a peace that is only a prelude to yet greater strife.

While Europe is in the midst of her struggle Asia and Africa will also be in the midst of vast changes.

In Persia a "star will fall to earth, rising to gather the peoples of the East together." A great leader of men will weld one-half of the East together, while another leader coming from the hills of Mongolia will oppose him. Between the two, great strife will take place, until the East is devastated. Then the one from Mongolia will conquer and control the entire East.

At the time this is going on Africa will also be in a tumult, although somewhat different from that of Europe and Asia. The many tribes of natives will be welded into a nation and revolt against their rulers, who, weakened by demands of the European conflict, will be driven out of the continent. We will then find two great continents hardened by decades of war confronting each other, each hungry for the possession of the other and the power coming from world dominance. These two will be Asia and Europe, for Africa will be too weak in equipment to attack.

Then will come a ten-year war between Asia and Europe in which the remaining strength of both continents will be destroyed. This struggle will come to an end because of utter exhaustion on the parts of both sides, ending in victory for neither.

All Europe and Asia will be peopled only by scattered colonies and villages, with all government and cooperation broken down.

Sometime I hope to go into detail about the preceding events, but now I want to talk about:

— A M E R I C A —

When America was founded in 1776, it was according to a plan which had existed for ages. The founders of our country were men who, in most part, were connected with certain great Spiritual Brotherhoods, and the highest Spiritual impulse was behind the founding of our nation. The founders knew that America had a great part to play in coming events and for that reason every occult principle was embodied in our nation's creation.

In the Great Seal of the United States a pyramid of thirteen steps is shown, each step symbolizing one of the thirteen original colonies. As America was founded by thirteen states it was prophesied that America would pass through thirteen periods of thirteen years each, the first beginning in 1776 and the last ending in 1945.

In connection with this it is curious to note that the number thirteen plays an important part in all ancient mystery teachings and all religions. For instance, Jesus had twelve disciples, forming thirteen; Odin brought twelve priests or godars to Europe from Asia; there were twelve stones in the breastplate of the high-priest of Israel, the stones and plate forming thirteen; there are twelve houses in the zodiac, all controlled by the sun. Many more could be cited but these are sufficient to show the great spiritual importance of the number thirteen.

In the Great Seal the pyramid is shown as unfinished, with the capstone suspended above it with a glory or light shining from its center. This triangle symbolized the high spiritual future of America after the thirteen periods of thirteen years each were completed, the interval between the final thirteen-year period and the capstone representing the years between 1945 and the manifestation of the new golden age that will come to America when the period of preparation is ended.

Of course we know that the capstone and its central glory have a great Masonic and Kabbalistic significance; the triangle representing the three primal elements of creation, air, water and fire, the three lights of the spiritual plane, Kether, Chokmah and Binah the top-most branches of the tree of life. The glory represents Hoa, the absolute, infinite Divine Light. The thirty-third degree Mason wears the triangle with a pierced base, showing that he has ascended to this high spiritual plane.

The founders of our nation were acquainted with the ancient wisdom and they knew that from the beginning America had been set aside as the future spiritual nation which would guide the world out of chaos and the darkness of old night into which it would fall.

It is for this reason that we have not previously spoken of America in connection with the strife and chaos into which the rest of the world will fall. America has a destiny, but one of peace and the establishing of the Christ-Kingdom on earth, to lead the way into light

when the rest of the world is hopeless, and bound in darkness.

But let us forget the past and talk of the present, and America's future, a subject that we are all vitally interested in today when wars and rumors of wars approach our life every day. Let us begin with the present year, 1940, and discuss America's present and future existence and relation to the rest of the world.

To begin, let us say that America must separate herself from the rest of the world, and its continual bickerings and quarrels so that our own strength will increase until we need only depend upon ourselves. The present war is but a prelude to a certain future conflict between Russia and Great Britain for trade domination of Europe. When this comes, certainly America will separate herself from the continued chaos in which we have no part.

During the next few years many momentous events will happen in this country. There will be an attempt made to establish a bureaucratic dictatorship which will fail. The two great labor unions will purge the communists and racketeers from their ranks and establish a single union. Unemployment will disappear and a new era of material prosperity will begin. A vast coordination of industry will begin to take form, each geared in close cooperation with the others to produce all needed things. A new form of money credits will be evolved that will raise the standards of living of all.

A government, old age pension plan will be formulated to supersede all present federal and

state plans. At the same time man will begin to understand that all such plans are a substitute for the eventual, perfect plan.

Many new discoveries in the realm of science will be made, some of far-reaching significance. For instance, cancer will be conquered and many vital discoveries affecting the general health and the extension of life expectancy will be revealed. A new planet will be discovered in this solar system, and at least three new elements will be found.

During the next few years the people will begin to take a greater share in the government and will demand a closer check on government expense and control.

After the present war several attempts will be made, both from within and without, to involve us in the affairs of other nations but at the last moment we will draw away. The last and greatest attempt will be made in 1945,—the closing year of the thirteenth period.

It is in 1945 that America will be confronted with her greatest danger when an attempt will be made to start a social revolution and establish an absolute dictatorship. When this fails, as fail it will, the close of this series of ages will take place and America will be ready to start the establishment of the new series of ages.

1945 will be the most critical year the people of this country will ever have to face, for in that year they must cross the dividing line between a high spiritual future and the material standards of the past. In that year a final break

will be made between the new world and the old and America will be ready for the dawn of the new age.

In 1945 we will begin the formation of the new social order, which will eventually make of this nation a perfect paradise, in which there will be no want, hunger, sickness or lack of any kind.

We know that under present conditions there is an unbalanced condition existing between production, potential production and consumption. This is not because America can not potentially consume all it produces but because the great mass of people are unable to purchase the things they actually need for their well being. Ninety-nine per cent of the people are only partly educated because economic demands force our boys and girls into industry when they should be completing their education. Crops are ploughed under, food animals destroyed in enormous quantities, yet millions are doing without proper food, to say nothing of lack of clothes, education, proper housing facilities, and medical attention.

America has the raw materials, factories, and manpower to supply every citizen of the country with not only the necessities of life, but the comforts and luxuries as well. Why is this not done? The answer lies in one plain condition. Man's selfishness and desire for power. He lacks a concept of "Brotherhood of Man," and "Fatherhood of God." Each individual trying to enrich himself at the expense of his brother helps to create a condition of destruction, nega-

tion and inharmony which, in turn, reflects back on himself. When we can make the Golden Rule of Christ,—“Do unto others, as ye would be done by,” our guiding principle, we will find a vast difference in life and the conditions of life.

As America separates itself from the old world, depending entirely upon itself, the spirit of cooperation will begin to grow stronger among all groups and classes. As men realize their dependence upon each other more and more effort will be put forth to bring about independence and financial security to all. All of these will be but the prelude to the new order which will arise.

In ancient Atlantis these same conditions were present, just before the dawn of their golden age. And did not Ecclesiastes say, “That which hath been is that which shall be; and that which hath been done is that which shall be done: and there is no new thing under the sun. Is there a thing whereof it may be said, see, this is new? It hath been long ago, in the ages which were before us. There is no remembrance of the former generations; neither shall there be any remembrance of the latter generations that are to come, among those that shall come after.”

Today, we have lost the records of the ancients which told of the perfect race and country and only in dim legends of Eden is the happy and blessed state of ancient man remembered.

In age after age, cycle after cycle, man has risen to a golden age and passed on to a

higher state, and the new golden age will be patterned after its predecessors.

Let us examine some of the prophecies concerning America and the golden age to see how this new Eden may be brought about.

In 1945 Americans will have realized that the processes and expenses of government have become more and more top heavy. Enormous taxes will have come into being taking 70 to 80 per cent of the total income, with an ever-increasing deficit piling up. In spite of increased employment and higher wages, conditions will become worse for costs of all products will have increased in proportion.

Because of increased activity in all branches of government, more and more departments will have been formed and hundreds of thousands of persons added to government employ. At the same time foreign agents (nazis and communists) will have insinuated themselves into high government posts and will attempt to take control of our government. This attempt will be circumvented by an aroused people, and all un-American groups and individuals driven from the country.

This will complete the preliminary period and establish the foundation of the new age, which will come as the result of the inter-dependence and cooperation of all the people.

In 1946 Americans will realize that the complicated system of federal, state, county and city government is too cumbersome for a streamlined age in which every part must func-

tion perfectly to keep from throwing the entire machine out of gear. A vast system of governmental reorganization will take place in the four forms of government, tending to simplify the top heavy and confused state of things.

In the reorganization the first step will be the reorganizing of the states into twelve, instead of forty-eight, and centralizing their governments in twelve capitols. These twelve new states will be formed according to population and area.

In sections where there are a number of small counties these will be combined into one county. A federal police force will, in great measure, take over the function of the present county and city police forces.

Each new state will have representation in the federal government according to population. Congress and the Senate will continue to function but fewer of both congressmen and senators will be necessary.

The President will have an advisory cabinet composed of the heads of the twelve states or their representatives. These will cooperate with the Congress, Senate and Supreme Court in the government of the nation.

All state laws will be eliminated, except those necessary because of special conditions peculiar to a state. Their place will be taken by laws passed by the Congress and Senate and approved by the advisory cabinet and the Supreme Court. They will be the same in

every state. The enforcement of these laws will be the functions of the federal police force.

All government officials will be elected by the vote of all the people, as at present, and all government employes will be subject to rigid civil service examinations.

In this manner government expenditures will be greatly reduced and there will be a consequent lowering of taxes. It is expected that it will take until 1955 to complete the new system and get it to working smoothly, for there will be a great deal of opposition, at least at first, by professional politicians who will fight against the loss of their fat jobs, held at the expense of the people of the nation.

After the establishing of the new and simplified system of democratic government many changes will begin to gradually come about as our people begin to see the benefits of co-operation. A greater sense of Brotherhood will arise and our leaders will begin to plan how to make a happier, greater and more prosperous nation. It will be seen that there are many factors hindering the perfect development of man, and gradually, one by one, these will be eliminated and a perfect cooperative system evolved. This will come about through the desire of the people for security, happiness and an even chance with all others. It is said that all men are created free and equal, yet when we look at society around us, and the advantage one has and the other doesn't, this hardly seems true. For all to be equal each must have

the same opportunity for education, health and prosperity, and this is not true under present conditions.

In 1960 the first event that will usher in the true golden age will happen. The discovery of how to release and control atomic power. With this discovery a cheap and inexhaustible source of power will be found and science will advance by leaps and bounds.

In this year the first experiments of a new system of economics will be tried and found successful. The government will take control of the new source of power and apply it to the building of a vast industry. Soon afterwards man will learn how to transmute the elements and will be independent of all natural resources. With these discoveries the necessity for arduous labor will be done away with and a new social problem will confront the nation. But this time we will be working cooperatively instead of against each other. Recognizing the need for adjustment of the economic system the people will place the power of re-organizing the social and economic system in the hands of their government.

At this time, the President of the United States will be a wise man, high in spiritual as well as mental development. Recognizing the need for a complete re-organization he will immediately begin work on a new plan of social and economic welfare, made possible because of our isolation from the rest of the world and our absolute independence of any outside contacts or materials.

The President will propose, and the people will vote upon, and pass, a law placing every resource of the nation, and all property, in the hands of the government. Private industry will become the property of the people as a whole.

Then from the greatest scientists of the nation, men versed in every branch of science from psychology to chemistry, an advisory council will be selected to develop a coordinated plan for establishing an economic system which will give each citizen a perfect life and a chance to do the things he is best suited to do.

The first step will be the abolishing of the monetary system and the establishing of a system of credits issued by the government. Every man and woman of eighteen or older will be issued yearly credits of the equivalent of \$20,000 in quarterly instalments. At the same time a set price, based on credits, will be placed on every article manufactured by the industries.

All inferior houses and slum districts will be torn down and replaced by modern, fully equipped individual homes of various sizes. Every family will be given a home, suited to their needs and the size of their family. Congested business districts will be eliminated and at intervals immense government stores will be established in which any article desired may be purchased.

New apartment houses with every facility for comfort will be established for single men and women who do not desire houses. These, like the houses will be available, rent free, to

any who desire to live in them. Cities will spread out and congested districts will be abolished. Smoke and clamorous factories will be abolished as the new atomic power will be used and factories established in segregated districts.

At the same time an important and far-reaching law will be passed, devaluating all credits issued during the year on the last day of the year. In other words, when the year is completed all credits issued the previous year will be void and worthless. This will remove the incentive to either hoard or attempt to acquire the credits of others.

Also, jealousy of others will be eliminated for all will draw the same amount of credits, regardless of the position they occupy in society, the laborer and artist, the scientist and President will draw exactly the same amount. There will be no need to try to keep up with the "Jones family," because all will have exactly the same.

At the same time ninety-nine per cent of crime will be eliminated, for most crimes are caused by lack of money. For example: A boy from a poor family, without a job or spending money admires a girl. He sees other, wealthier boys able to show her the good time he would like to but is unable to. Under such conditions it is very easy to fall into temptation and commit a crime that otherwise would not be attempted.

Others, losing money, or confronted with possible loss, are very apt to turn to crime to

maintain their position for a time.

Loveless marriages, marriages of convenience and for financial gain will be eliminated, for when each has the same financial status there will be no need for these kinds of marriages. In a great measure this will eliminate divorce. On the other hand there will be no incentive to maintain a loveless marriage because of necessity of support, either of self or children.

All schools and colleges will be maintained by the government, and every individual will be completely educated and prepared for life without expense. This will result in a high standard of intellectual development, which will, in turn, reflect in the life of the nation as a whole.

All hospitals and public institutions will be operated by the government, and every one will be able to have all necessary medical care. This will result in a far higher degree of health and will raise the life expectancy by many years.

At the same time doctors and scientists, being furnished all equipment necessary for experimental purpose, and removed from the necessity of a struggle for a livelihood will be able to devote more time and effort to their work and as a result, will, in time, conquer all disease.

Every citizen of the new America will have an opportunity to find his true position in life, for in every district, examination boards will

be set up, composed of competent psychologists and psycho-analysts, who will test each one of his greatest capabilities and fitness. If one works in his leisure to prepare himself for a different position, he can apply at regular intervals for re-examination, and if found fit, be assigned to new positions. In this way the sole criterion of the position in life one occupies will be his fitness and capability.

Because of the great strides science will make, most manual labor will be eliminated, and through the use of atomic power the hours of labor will be shortened to two hours a day, four days a week.

Man will thus have a great deal of leisure to constantly improve himself in, and as a result literature, music and all the arts will play a major part in the life of everyone.

With the removal from his mind of fears and poverty, financial worry, ill health and emotional strain, man's higher spiritual nature will take greater control of his being and he will manifest ever more and more as a perfect moral, mental, physical and spiritual being.

While all of this development is going on America will not have lost sight of the conditions in the rest of the world, and when the world has exhausted itself, America will send forth men and women, strong in body and spirit, to aid suffering man in all hemispheres to attain to the same state that America has risen to.

All of this may seem like an Utopian dream, yet it is true that "what man can think, he can accomplish." That this will come is as certain as the rising of tomorrow's sun.

For America, the chosen Kingdom, the great new spiritual nation, the light of a perfect life will spread to all the earth, and the new golden age be made manifest.

All of this will come about, not through disorder and revolution, but through the evolution of the democratic American principles to their perfect state.

We can all have a part to play in preparing for the new age!

Begin to think!

Stand for America first, last and always!

Demand that this country build the greatest army, navy and air force in the world!

Expose, and demand the expulsion of all anti-American individuals and groups!

Use your power of franchise and vote!

Demand that your government maintain America for Americans!

Put forth every effort to aid and assist every agency of our country in every possible way!

Work for the establishment of the Christ Kingdom, the New Golden Age!

Your effort is just the one needed to make America the home of the future spiritual Kingdom!

The Coming Avatar

By DOREAL

We know that in every age, when man has need of a spiritual or material leader, that always that leader has been brought forward, often from obscurity, but when the time is ready, the one that is necessary to carry out whatever is needed is always found. We know, also, that at periodic intervals in the world's history there have come great spiritual leaders and teachers who have been able to change the entire thought, and manner of living of great masses of people.

Jesus, the Christ, Gautama Buddha, Sri Krishna, Lao Tze and many others came at the time when they were best able to work with man in the condition of life in which he found himself, and we know that each step forward has been a progressive one. That is, that each teacher or Avatar has builded upon the foundation previously laid and has brought to man a new and clearer spiritual insight than he has ever had before. We know that the world today is ripe for a new leader, a new Avatar.

The word "Avatar" may be a word which is unfamiliar to many of you. We have all heard of those great ones that are called great masters or Adepts. The great Masters or Adepts are those who by work, evolution and developed consciousness have finally cast off all the shackles which have bound them in lesser planes of Nature and have

become masters of all the planes of Divine Harmony; who have freed themselves from the wheel of life. An Avatar is one of those Children of Light that were never, in the past, bound in the flesh, bound by negation and never had to overcome or master life. These are called Children of Light, Suns of Gods, sometimes angels. They are the great powers and forces which, whether unseen or hidden, guide and direct mankind, age after age, into new, and spiritual light.

We know that the world is today in a condition where old spiritual values no longer seem to be sufficient, that man has even begun to doubt the very existence of the Divine spirit. There are thousands and millions in the world today who say, "If there is a God, if there is a Divine Spirit, He would never allow such things as are happening today." By their very attitude they are drawing farther and farther away from the only power that would enable them to change their life, and the conditions in life around them. For that reason, we know that man must be given a new spiritual insight.

We know, also, that we are today in the closing years of the sixth earth cycle and almost at the time when we will emerge into the seventh round of the wheel of life. In the past, those who have delved deeply into the mysteries have learned that the close of each cycle of earth has been marked by exactly the same chaos which exists in the world today.

I want to talk to you about the coming of the Avatar, the new world leader, the new Messiah, that will lead man out of his spiritual and material darkness into the new age of light, and it is important for everyone of us to know about that world leader and about that Avatar. I have mentioned that leader, that Avatar, occasionally, but I have said very little except the bare fact of the time of his appearance and where he will appear and in this article I want to give you a more comprehensive picture of that leader and the things that he will do when he appears. But before I do this, I want to talk a little more about you.

We know that Jesus came to give men a message and understanding of Divine Law, to lift them above the surroundings and conditions of their day, and, the conditions of that day were in every sense as bad as conditions are today. The things which exist in the world today are as old as mankind. There is not one thing that has not existed before, including taxes and W. P. A. The Roman government went through all of those stages. They had every problem that we have today and in the end all of those things failed, because they were not the solution of the problem, because they were an attempt to bring to man from outside the things which can only be created by building the inner self so that one can attract them according to Divine Law.

It is an absolute fact that you can give nothing; that every person must receive.

People receive by creating the condition within themselves which attracts to them a like condition in the outer world. No condition exists in the outer world which has not been first created in the inner, therefore, we say that conditions which exist in the world today are not something which has been sent by an angry God but rather are the results of man's own failure to create a condition of consciousness within, which would make for himself a perfect instead of an imperfect life.

We hear a great deal about the Brotherhood of man, and yet there are few of us who have any consciousness or realization of the brotherhood within ourselves and we are constantly offended and allow our emotional nature and temper to run away with us. Man must create a new condition within himself before he is able to change anything in the outer world. The chaos in the world today is not the result of the force of any one, individual person, but rather the manifestation of the combined inharmony in the great mass of mankind,—of whole races and nations.

I want to speak about that period which confronts us today, and I want to speak of it from the spiritual rather than from the material aspect. Let us say this: That man is in as much chaos today spiritually and mentally as he is materially, and he does not know where to go for the comfort which he desires, because man still likes his comfort, and as a mass, mankind is not able to stand on their own feet. They have to have some guidance

and direction which will enable them to create and change the conditions of life around them — that they are not able to change themselves, because of their lack of certain spiritual qualities, and because of their lack of application to bring them into being.

We know that when Jesus, the great teacher of 2000 years ago, came that he did not come into a world and to a people who were unprepared, that those who were gathered around him and were inducted into the inner Christ-teachings were those who had, by work, study, and preparation, made themselves ready so that when the Master appeared they would be able to recognize him.

There are words in the Bible where we are told how he called the twelve to him, we hear of him walking by the seashore, and they dropped their nets and came to him; but we hear very little of the fact that they were men who had been spiritually prepared by John the Baptist and others so that they would be spiritually able to recognize the master. There are few today who have their inner eyes and ears open to the degree that they could recognize a master when he came, and I want to say this: That if Jesus came to earth today he would be laughed at, and stoned. Remember the great mass of people did not accept Jesus when he came. It was only after things he said began to take root that people began to accept him as a Master. The reason for this was that the great mass of people were not spiritually prepared and

the great mass of people today are not spiritually prepared. Unless they can arouse the Christ Consciousness within they cannot recognize the Christ Consciousness when it comes to them in the outer world.

We know, too, that there are many persons, millions of them, who are longing and talking about the coming of an Avatar and there are many schools today who are beginning to realize that an Avatar is coming and must come. We know that the world today is in a condition where it needs clear vision.

The reason for the war is because every material thing upon which the world leaders had leaned fell from under them and they could not think of anything else except a war. Emergencies are very handy when you have failed to do things through material means, but unemployment cannot be stopped. War has come, agreed upon by the leaders of nations so that they can handle their own internal problems. The time is coming when problems will not be solved in that manner. We need a new age of spiritual enlightenment and we need a great spiritual leader to enlighten, encourage, inspire and lead the millions of souls in the world, who are confused and uncertain as to what the future holds for them, and when the need arises that need is supplied. Man always receives exactly what he creates in his life and in his thought.

We know it to be an absolute fact that those spiritually enlightened persons in the

world who have been striving to bring about as much light and understanding as they know how, are all over the world beginning to recognize the fact that a new Avatar is at hand. They know that all the signs and portents mark the appearance of a new world leader, but not a leader of material armies; a leader that will lead the world into peace and spiritual unfoldment. That leader is almost here, if we count time in more than a few weeks and few months, because the new Avatar is already born; the new Avatar is here in the world today. At this moment he is not in this country. The new world leader is being prepared; the groundwork is being laid. Every chela and every disciple through whom the White Lodge works has been instructed to begin to prepare those persons who are willing to devote their life to work for the betterment of mankind — to spread the light so that when the time comes they will be worthy to become the disciple of the new Master. I am only one of many who has been so instructed, and you are going to find word coming from every direction about the new Avatar. They do not know when, because I was given the privilege of stating the time of his coming, but they all know that they are to prepare men in every way so that when that time comes there will be material to work with, and human material has to be drawn from this country because it is only here that there is still freedom, freedom to think and speak. We have freedom of religion and the right to prepare

ourselves for the coming of the Avatar, yet when we speak of that most people are about it like they are about everything else. They begin to wonder, 'how much am I going to have to work? Will I accomplish it or won't I?' They do not have confidence that the Divine power will provide the means for them and everything else so that they will be able to accomplish all that is necessary to build for the Golden Age, the Seventh Cycle, the New Christ Kingdom.

We know that there is a spiritual strength that comes to one who has the vision, the love, the desire, the courage to enter in the Path of Light, and those who have that courage, that strength, are those who will be the chosen disciples of the new Avatar.

I am going to state quickly for the benefit of those who have not heard previous talks, that the new Avatar is coming on May second, 1956. It is now 15 years until the close of the sixth age, or sixth cycle; May second, 1956, is the day upon which the sixth cycle terminates and upon which the seventh age begins and it is on that day, the day which marks the change, the beginning of the new age and new cycle, that the new Avatar will appear, and as I said previously, He will appear at high noon and the place of his appearance will be New York City. And I want to say this: That the Avatar when he appears will be 30 years of age. Today he is only a little over fifteen years of age and at this time, at this period, he is in Tibet.

He is in that monastary where Jesus spent five of the years between the ages of 12 and 28. When I say he is there, I do not want you to think that he is there having to study and learn to be an Adept. That is not the reason he is there. He has at the present time assumed full and complete charge of the laying of the spiritual foundation here in America. He has lived in the flesh in that monastery to this moment, and I want to say too, that for those of you whom I accept for special work that I plan on our doing a little, I am going to give instruction so that you may attune yourself with the new world Avatar. That of course is entirely up to you.

The Avatar was born here in this country. He was born in America of American parents, of the White race, and he has been in Tibet ever since he was five years of age. The parents into whose hands he came were chelas of the Great White Lodge and they understood fully and perfectly why the child was born and what they were to do, and those parents, after they had completed the first five years of training of the new Avatar, went with him to Tibet and they are also in a monastery there. They are not in the same monastary; that he is now in. They took him there, and for a period had charge of his instruction and training in the flesh, but now he has assumed charge and direction of the building of the spiritual kingdom, and foundation of the new age in America. That part of the work came into his hands and is under his full direction. Later, I am going to give his

name to those who are prepared to become his disciples.

Remember, that he is 15 years of age, and by that I mean he has been 15 years in this earth body, in incarnation in this body. He was, before the earth was created and formed, and he will be, after the earth, the world, ceases to be. All of his effort, and work will be concentrated here in this North American continent through those who have been given him to work with. He will begin to establish his work in every town, and city in America among groups of spiritually minded people who desire to bring perfect light, peace and perfect harmony in the world, people who will put aside all selfish desire, and dedicate their lives to the bringing about of the goal that has been set by the Great One.

There will be periodic times when those who have been chosen will be called to appear before him. They will be chosen to go to the East and then return with him and there will be others who will prepare the way for the great demonstration which will take place when he appears in this country. When the Avatar comes at high noon, May second, 1956, in New York City he will appear at the corner of 42nd Street and Broadway for everything which is to occur on that day has been prepared, and the world is going to see such a demonstration of power that they will be willing to receive, because on the moment that he appears every newspaper in the country, every radio station will carry

the message. There will be whole pages telling of his coming and at the time that he appears there will be phenomena of earth shaking importance.

Among other things, on the day when he appears, and at the time that he appears, the sky will be cloudless, not a cloud in the sky over the entire country and at the moment before he appears the sun will be blotted out, all the light of day will vanish; the sun will be no longer seen. Instead, over the entire earth there will spread a glow of golden, rosy light, appearing out of every material object, out of earth itself, that will cast a light unlike anything anyone has seen before, and when that happens there will shoot out from the skies a ray of light that will vibrate to two unknown colors of the spectrum, and that ray of light, like a search light, will cleave the spot that he is standing on, and when it strikes, strange things will occur, every person that is within 100 miles radius of its striking, even if they are dying, will stand on their feet, every person or animal that is sick will be healed on the instant and that light will cover the earth for an entire day and night, and the next morning it will vanish. This is only the first of the miracles that will take place, and each one will be spoken of before it comes. You will see his star in the East. You will see his star all over the world because when he appears, at that instant over all the world, every living person will hear a voice and that voice will command that every arm and every sword and every gun be

laid down and that every man turn his thought to thoughts of peace and Brotherhood or the wrath of the Divine will be poured down upon him.

To many, that voice will come as a portent, and they will heed, but many will not, but every day there will come more and greater portents, things which cannot be explained by any law of Nature as man knows it, and they will be told of before by the Avatar and he will begin to call men to him, and he will have power to waken and quicken the dead spiritual nature in man and he will begin to teach, and as he teaches, a new light and new understanding will awaken in man and man, not as a whole, but man that has prepared himself will begin to lay aside the shackles which have bound him and there will begin the greatest spiritual revolution that the world has ever known. Light will begin to be dominant rather than darkness. The Avatar will teach here in this country for 15 years and during that time the foundation of the new age will be laid, he will teach an entirely new understanding of religion, an entirely new relationship of man to God, an entirely new understanding of God.

To as many of those as choose to be disciples, the beginning of the new teachings that the Avatar will give, will be given. You know we have to learn to receive, and we are told that the Avatar expects that by the time that he is ready to appear, by the time that the new age comes into being, that there will be in America

at least a hundred thousand persons who will have become his disciples, not 10 or 12, but one hundred thousand and that those will be sent here and there and the power given to them so that they can carry the word, and everywhere they will begin to change man's thoughts, they will begin to bring him into the understanding and consciousness of perfect Brotherhood, and as they do so, the entire economic and social structure of this country will change and a new order will come into being through a spiritual revolution, that will take place within the American people themselves.

There will be a revolution because there will be a destruction of the old conceptions and the creations of a new inner consciousness and thought, so that man begins to appreciate his own relationship to man and God and will begin to see where he has failed, and then he will begin to demand and create the foundation of that glorious new age which will be the very apex of man's life and evolution here on earth.

For many years we knew the time was almost ready, but we did not know the Avatar was coming until a year ago. When the time came we were told. The Cosmic White Lodge told us that the time was at hand, that the old age was passing and at the dawn of the new age, that the Child of Light, the Son of God, the new appearance of the Christ Consciousness would come to guide and direct man. During 15 years the Great One will work and live here in America and at the expiration of that time he will begin to spread his teaching to other

parts of the world and all religions will be changed. All religion, all doctrine and theology will be done away with and all mankind will begin to turn toward the One Light that will be a part of the coming of the new Avatar, because the new Avatar is coming not only to change man's spiritual nature but to change man's material nature so that all want, lack, sickness, and disease, and even, for many, death, will be done away with, because, remember, Jesus said, "The last enemy that shall be conquered is death."

Whenever I meet a person the first thought that springs into my mind is this: "I wonder if this person is going to be one of the disciples of the Avatar when he comes?" Occasionally, I meet one that I am sure is going to be ready and I want you to take thought within yourself as to what you want to do. Do you want to make yourself ready for the Master when he comes. If so, begin to live the life of Truth, express it in all your deeds, think it in all your thoughts.

If you have enjoyed this booklet and have friends or loved ones who, you think, would be interested in, or benefit by, reading it, you may obtain additional copies for 25c each or five for \$1.00.

Spiritual Power Magnetic Healing

By DOREAL

The Science of Health, the healing of one's self and of others is so plainly explained in this book that anybody can learn how to use the Spiritual Power for healing. The book is written in two parts; the first part gives the law of Magnetic Healing and how it is applied to the mental, nervous and physical anatomy of man. In the second part specific cases are given with their corresponding treatments.

With the principles given in this book the reader will be able to acquire the Spiritual Power to heal himself and others. He is shown how the Magnetic Healing Vibration is sent

to the affected parts, and how to correct the cause. When the cause is treated and removed the symptoms will disappear. When treating with this method which Dr. Doreal outlines, the healer is taught to heal by removing the cause of the sickness—so that the same symptoms or others will not later appear.

SPIRITUAL POWER is a book which every healer should have. This method of Magnetic Healing is so simple that any student can learn to use it. From the information contained in this book, he can immediately heal himself and others without any previous training—\$1.00.

Four Planes of Healing

By DOREAL

A common mistake among most Spiritual Healers is that they use one method for the treatment of all ills. This limits them and is actually the reason for their failure in healing many cases which come to them for treatment.

There are four planes of man's being which should be considered in Spiritual Healing; the physical, mental, psychic and spiritual planes. A symptom may appear in the physical which has its cause in any one or more of these four planes. The treating of symptoms alone will not remove the cause. When the cause is not eliminated, even though the symptom has disappeared, the patient has not been really healed for the same symptoms or another may later appear if the cause is allowed to remain.

It is for this reason that when the healer has learned how to operate on the four planes, he is able to reach the cause and permanently heal his patients. One method cannot be successfully used for all ailments or conditions. With the knowledge of Four Planes of Healing the healer may expect to wisely treat the patient for any condition which may be brought to him.

FOUR PLANES OF HEALING is a Textbook for Healers. It describes the Laws of Healing; giving the methods for employing them and cites a large number of examples which explains how they are to be used. Dr. Doreal gives the methods for diagnosing both the symptoms, and their causes, and fully explains the treatment for each.

This large book is not written for the healer alone but may be used for self treatment as well. The beginning student in the study of spiritual Healing may read FOUR PLANES OF HEALING and begin immediately to practice its principles and heal the sick. All students who wish to learn how to heal, either themselves or others, should read this book. (Formerly \$10.00 —Now, Second Issue, \$3.00.)

MASTERS

Visible and Invisible

By DOREAL

MASTERS, VISIBLE AND INVISIBLE, contains inestimable information about the Masters which every student of Truth should know. So many varied ideas have been given about the Masters that the average student has little or no real understanding of them. This work eliminates the hypothetical concepts which so many have been led into believing and explains the natural life and manifestation of the Masters.

This writing gives valuable information about the Masters of the Great White Lodge, the Children of Light, and the Angels or Logoi of the Seven Spiritual Planets which circle the central Spiritual Sun. Dr. Doreal shows the nine zones of Color and Light and how the Masters, such as Khoot Hoomi, Morya, Hilarion and others manifest in these zones, teaching and helping those bound in darkness. He explains why the Visible Masters may appear in either sex and why they have appeared more often as men than as women and why the Invisible Masters are said to be neither male nor female.

And in addition to the above priceless information, Dr. Doreal gives the four aspects of the Soul as it is taught in the Kabbala, and other teachings of the Ancients. These four aspects of the Soul, and how Michael and Sam-

uel, the good and evil angels or forces in man may be balanced to form the Spiritual Image of Divine Power are explained with diagrams and charts.

You will find it instructive to refer to this book from time to time while studying your lessons on Truth or when reading other books relative to the Masters and Spiritual Attainment—price \$1.00.

The Emerald Tablets of Thoth-the-Atlantean

Some 38,000 years ago Thoth, an Atlantean Priest-King, the colonizer of Ancient Egypt (Land of Khem), builder of the Great Pyramid of Gizeh, (erroneously attributed to Cheops) auto-biographically wrote the legend-famous Emerald Tablets of the mighty "Magic-Science" and Wisdom of Atlantis.

These Tablets are posited in one of the yet unopened chambers of the Great Pyramid. They are formed of an Emerald Green Substance, created through alchemical transmutation. They are imperishable for the atomic and cellular structure is fixed and inoxidizable, and in this respect violate the material law of ionization. The Tablets are fastened together with hoops of golden colored alloy suspended from a rod of the same material.

Thoth was a native son of Ancient Atlantis. He was born in the city of Keor, on the Island of Undal. He was instructed in the Elder Mys-

teries by his father Thotme, who was the keeper of the Great Temple and a Mouthpiece to Horlet, Master of Unal, and Ruler of Atlantis. Thoth was chosen from the sons of men and was taught the Path to Amenti and received the Key to Perpetual Life. Later, after the sinking of Atlantis, he and his followers emigrated to Ancient Egypt.

Upon arriving in Egypt, they found the land inhabited by a barbarous race whom they collected together and later raised to a high degree of civilization. For some 16,000 years Thoth ruled this Ancient race, from approximately 50,000 B. C. to 36,000 B. C. Thoth was immortal; that is, had conquered death, passing only when he willed, and even then, not through death. His vast wisdom made him ruler over the various Atlantean Colonies, including the ones in South and Central America.

When the time came for Thoth to leave Egypt, he erected the Great Pyramid over the entrance to the Great Halls of Amenti, placed in it his records and certain mechanical devices. He then appointed from among the highest of his people guards to protect his mighty secrets. In later times the descendants of these guards became the Pyramid Priests, while Thoth was deified as the God of Wisdom, the Recorder, by those in the age of darkness which followed his passing. In legend, the Halls of Amenti became the Underworld, the Halls of the Gods where the soul passed after death, for judgment. During later ages the ego of Thoth passed into the bodies of men in the manner

described in the Tablets. As such he incarnated three times, and in his last he was known at Hermes, the Thrice-born.

Some thirteen hundred years B. C., Egypt, the Ancient Khem, was in turmoil and there were many emigrations of priests to other parts of the world. In one of these emigrations the Emerald Tablets were taken by some Pyramid Priests to South America, and in the tenth century the Mayan Priests placed them beneath the altar of one of the great temples of the Sun God.

After the conquest of the Mayas by the Spaniards the cities were abandoned and the treasures of the temples forgotten. Dr. Doreal who has a connection with the Great White Lodge, which also works through the Pyramid Priesthood, was instructed to recover and return to the Great Pyramid the Ancient Tablets. Before returning them he was given permission to translate and retain a copy of the Wisdom engraved on the Tablets.

This was done in 1925 and only now has permission been given for this book to be published.

It is expected that many will scoff, yet the true student will read between the lines and gain wisdom. If the light is in you, the light which is engraved in these Tablets will respond, and that which is strange and beyond the belief of the modern scientists will be revealed.

The Emerald Tablets are so written that the

words respond to attuned thought waves, releasing the associated mental vibration in the mind of the reader. And thus the magnanimous wisdom of the author is revealed.

The Emerald Tablets should be read, not once, but a hundred times for only thus can their true meaning be discovered. A casual reading will give glimpses of beauty, but more intensive study will open, to the Truth Seeker, avenues to the most intrinsic wisdom; wisdom of unutterable majesty and beauty.

The Brotherhood Publications has produced a most attractive binding of Dr. Doreal's translation—printed on an Emerald-jade green paper with a hand colored cover design of the original Tablets. The demand for this book on the Atlantean Mysteries has been so great that already it is in its second issue of publication—price \$2.00.

Symbolism of The Great Pyramid

By DOREAL

The Great Pyramid of Gizeh, sometimes alluded to as the Mystery in Stone, is not a mystery to the Great Occultists. Its builders, how it was erected, when, and the purpose of its erection are definitely known. The Pyramid was never used as a tomb and the chambers opened to the public are but a few of the many yet unopened chambers. The world has yet to

learn of the great significance of the Kabba-
listic, Alchemical and Occult Symbolism con-
tained in the Great Pyramid.

You will find this extraordinary book the
most instructive exposition of this monumental
wonder of the ages that has ever been writ-
ten. It is a compendium of Occult facts, never
before given to the public at large—many of
the Ancient Pyramid Mysteries are revealed.
This book establishes certain facts that will as-
tound the most learned and scientific Egyptian
Archeology students. After you have read this
book you will want it in your library for further
study and reference.

Scores of books have been written about the
Great Pyramid, but the writer of this review
has not seen one book upon the Pyramid that
contains even a part of the information con-
tained in Symbolism of the Great Pyramid. It
contains charts of the known and unknown
chambers, also the Symbolic Significance of the
Sphinx and its connection with the Pyramid—
\$1.00.

Reincarnation

By DOREAL

The Mystery of Life, and Death is solvable
if the student will sincerely look at the infallible
evidence in Nature and use his common reason.
No mystery remains mysterious after its solution
is known. The theologians with their reiter-
ated orthodox teachings have compiled libraries

of literature about physical and spiritual life, its possible beginning and end which only has confused and perplexed the student more than it has answered man's most important question. No man should accept the answer to any riddle that is not within 'reason'.

In this book Dr. Doreal compares the teachings of Reincarnation with the Laws of Divine Justice. He cites instance after instance which we see every day in Nature showing that Reincarnation is the only just, logical and reasonable solution to the Mystery of Life, and Death. He gives definite proof that Jesus taught Reincarnation. He shows how Jesus lived, died and was resurrected again to show Reincarnation's Law.

You will read and reread this book, discovering new and greater realizations of Life's Truth at each reading. You will marvel at how so many straightforward facts about life can be contained in such simple matter-of-fact language—price 50c.

Instructions of a Master To His Chela

OR DISCOURSES OF THERON
THE ADEPT

By DOREAL

INSTRUCTIONS OF A MASTER TO HIS CHELA is the personal experiences of Mr. Leslie Seaton, a young American, who heard the call of his Master in a vision and was told to come to Tibet. He made the necessary preparations and was mysteriously guided to the "Immortal Mountain of Mystic Fire" where Theron, his Guru, met him. Into this mountain and deep within the earth's crust, Seaton was taken by means, the secret of which our modern scientists would love to learn. Seaton was called by his Guru to finish the studies he had left undone in his previous incarnation, when he was a student of Theron.

As soon as Seaton had sufficiently rested from his extraordinary journey, his instructions in the Mysteries began. THE DISCOURSES OF THERON, THE ADEPT, are given word for word in this book and the experiences of Seaton while his consciousness is projected from his body. It is written in story-like manner, with the Discourses of Theron, (even to the answers to Seaton's questions) — so vividly given, the reader feels that he is seated at Seaton's side and is instructed with him.

The Brotherhood of Illuminated Units of Consciousness, or the Great White Lodge, is the subject of the First discourse. Shamballa, the Secret City of the Masters, its location and description, and how the student may go there, were some of the things discussed in the Second Discourse.

The Discourses which follow are more than Discourses, because some of them are given while Seaton's Consciousness is free of the body. The main subjects discussed and places visited are as follows: THE SECRET CITIES, or "Seven Cities of St. John (or Cibola)," THE COSMIC WHITE LODGE, THE SECRET FLAME, THE INNER EARTH (the Inner Temple and the Blue Race), TIME AND SPACE, LAW OF LIFE, THE EMOTIONS, THE CHELA.

INSTRUCTIONS OF A MASTER TO HIS CHELA is an unforgettable book. It lifts the reader into such heights of consciousness that often the Spiritually evolved student can contact the Great Masters through the attunement which may be derived from its reading. The student wishing to enter into the Teachings of the Inner Mysteries MUST read this book for it shows the Path others have taken—the Path all Occult Students must take. You may obtain a copy of this wonderful book for only \$1.00.

Cosmogony and Cosmology

By DOREAL

The Mystery of the Universe is contained in the Unwritten Kabbala; the Keys to the understanding of the formation of the earth, the beginning of man and of his evolution to the consummation are veiled in its symbolism. In the old Kabbalistic Mystery Schools these Keys were taught to the select few. Because they were never written, the Occult Wisdom of the Kabbala, the Sepher Yetzirah, the Book of Concealed Wisdom, and the rest of the Ancient Teachings have been lost to the world at large. The findings of modern science have not as yet even scratched the surface of the Great Knowledge which the Ancient Races knew about the Laws of Creation, and of the manner in which the Supreme Hidden One manifested in the material.

The Mysteries which Doreal has given in this book are much too great and all-encompassing to iterate in this review, May it suffice by saying that COSMOGONY and COSMOLOGY is more than a history of Universal events for he has shown the coming forth of the Laws of Creation while they were in the World of Formation even before the Cosmic Condensation became manifest. Doreal explains in this book how Order and Disorder were born in the Void and how Hoa, the Most Ancient Existent One, the Supernal Egg, (1. Yod), etc., was brought forth. With the use of graphs and diagrams, he brings the forming of the Cosmic Egg, the

manifestation of the Sephirothic Lights and the Creation of the Worlds, Man, and Life, sufficiently simple for all to understand.

But possibly the most appealing phase of this Work is his illuminating explanation of Life and of the manner in which it is manifesting on earth. The Ancients divided the evolution of the Universe, which is one Cycle of Cosmic time, into Seven Earth Cycles, with each containing seven smaller divisions of time. The number of years of each epoch is given and something of the history of man during these periods is explained. The Atlantean or Fifth Earth Cycle is the one which is most elaborately discussed. A map of Atlantis is shown, giving the names of the islands.

The reader of this book will be able to learn how it was that man fell into negation and the reason for his struggle in the material to regain the full use of his soul. He will also gain an understanding of how the ancient Prophets were able to foretell the coming of events in the future — price \$1.00.

Sepher Yetzirah

THE SEPHER YETZIRAH is a large, attractively bound book unveiling the Kabbalistic Teachings of the Ancients. It is a book on the "beginnings" of the First Cause of Divine Creation, and is usually considered by the Occultists as an introduction to the main Kabbala.

He who understands the Kabbala has the Key to the Source of all religions for it is

the "Ancient Wisdom" from which all Truth Teachings sprang. The SEPHER YETZIRAH explains how the Infinite Essence of Hoa came into being and manifested through the ten Sephirothic Lights of the Divine Tree of Life.

The Holy Elders of the Ancient Wisdom Teachers employed the Hebrew Alphabet of twenty-two letters, numbers of ten and the Sepharim to symbolize the Infinite Foundation of All Things; the Sephiroth and the Three Holy Mothers of Creation. No words can express the magnificence of this Work nor can one even adequately approach telling another of the Wisdom which it contains. Dr. Doreal gives the Text of the Sepher Yetzirah, verse by verse, and following each verse he gives explanatory notes of each.

No student of Occultism, Metaphysics, etc., can afford to be without this beautifully explained version of the Kabbala which is illustrated with numerous charts and diagrams which aid greatly in the understanding of the text—price \$2.00.

The Authentic St. Germain

From undeniable documentary evidence Dr. Doreal has compiled the facts concerning St. Germain. St. Germain has recently been reputed as an Ascended Master. A great amount of interest in the authenticity of St. Germain's Occult Powers has recently developed. So much has been said and written about him during the last decade that thousands have accepted

him as their Spiritual Master and Teacher without taking the time or trouble to verify his authenticity. Because the records of his life were not readily accessible to check, little has been actually known of his true life.

The records concerning St. Germain (taken from "Mitchel Papers" in the British Museum, and other documents in the French Foreign Office and elsewhere) are quoted by Dr. Doreal. These records written by men who personally knew him, with letters, which he himself wrote, etc., establish facts concerning his life, habits and Spiritual qualities which are undeniable.

The truth about St. Germain is authentically given in this book. Those who have been led to believe that he is a Master or Adept and who wish to learn the facts about his Spiritual and Occult Powers cannot afford to miss reading this exposition of the "true life" of St. Germain—price 25c.

Astro-Chemical Analysis

TWELVE CHEMICAL TYPES

By DOREAL

The Astro-Chemical Analysis of the Twelve Chemical Types of Man can now be secured in book form. We are publishing this book because of popular demand.

This very scientific book gives the Astro-Chemical Analysis of the twelve different chemical types according to their Astrological signs.

Through chemical and spectroscopic analysis, twenty-two elements are distinguishable in the human body. One hundred persons born under each sign of the Zodiac were examined in the formulation of this analysis. The Astro-Chemical Analysis is combined with a knowledge of bio-chemistry and endocrinology and definite analysis of the type.

The human body is a very complex mechanism and the intricacies of its chemical action closely follow the ancient alchemical processes. The food we eat contains various elements which are extracted and recombined to form new substances which are necessary to the body's well being. Astro-Chemical Analysis shows us what elements are most needed for our own particular body chemistry.

The corresponding physical conditions which appear, when the body has a deficiency or an excess of the predominant chemicals, which characterizes each type are given, then the necessary elements, with the foods which contain them, are given for attaining the proper chemical balance in the body.

Every person who is interested in scientific feeding and who wishes to get well by eating the food which is required for his individual type should have this unique book. He will be able to analyze for himself the foods he should eat for attaining and maintaining perfect health—price 50c.
